Camera of the UAV

a small second picture beside the video, 8 frames analyzed a second

previous frame

this frame

① tiles of the two frames are correlated: shift, turn and zoom of the camera

their difference

every edge of the scene differs

movement taken out

② previous frame put onto this one

what moved

③ above the noise, twice in a row

Report

where, how strong, since when: a few hundred bytes of text

AES-256-GCM

status stream of the link

Ground station: dashed boxes on the live view, event log

PHOTO ON MOTION: a sealed photo when movement begins

SENTRY: the camera watches, no video is sent, only the reports
